

Cost-effective automation

NEW Mitsubishi LoadMate Plus™ Industrial Robot Cells for Plug & Play Operations

- + High-speed machine tending eliminates lost time between machining cycles
- + Palletize parts in any high/low volume mix
- + Maximum portability from machine to machine – just roll it!
- + Payloads up to 20kg using Mitsubishi RV series
- + Fully enclosed for safety-first functionality
- + Reach up to 1,388 mm
- + One-step setups using (1) Ethernet cable

\$49,900

embracing **automation**

It's Easier Than You Think! Today, manufacturers seek guidance in determining how automation can **FIT** into their current production processes. Absolute Machine Tools can help. We **COLLABORATE** with customers to determine where automation will best fit and remain **AFFORDABLE**. We help customers **TRAIN** their current workforce so they too can upskill and play a critical role to ensure their company continues to be **COMPETITIVE** and **PROFITABLE**. Absolute Machine Tools is a better choice than typical automation integrators because we understand people and CNC machine tools... **we are absolute!**

Specifications for Mitsubishi LoadMate Plus™ Robotic Cell Series:

- Axes: 6
- 6 Models Available
- Payloads up to 20kg
- Maximum reach up to 1388mm
- Stand Width: 36" or 48"
- Stand Height: 82"
