**Absolute Machine Tools to Demonstrate LICO LNT51S-S4 11-axis Multi-slide CNC Screw Machine at PMTS 2021 in Booth 4013**

[LORAIN, OH – May 2021] During the 2021 [Precision Machining Technology Show](#) (PMTS) on August 10, 11, and 12 in Cleveland, Absolute Machine Tools will demonstrate the LICO LNT51S-S4 multi-slide [screw machine](#). The demonstration will take place at booth 4013 and will be given by Absolute's Applications Engineer Scott Petrisko.

Petrisko will show how multi-slide CNC screw machines can outperform conventional CNC lathes and even cam-operated screw machines. Not only are the LICO machines fast, but they address many of the factors that make cam-operated screw machines challenging, such as aging machines, lack of skilled labor, maintenance issues, safety standards, and more. The demo will present the alternative [LICO LNTS](#) series of 11-axis CNC screw machines, which feature multiple overlapping slides that can meet or exceed machining speed, quality, and versatility found in cam-driven machines. Each machine in the series can use up to five tools simultaneously and each slide is capable of full 2-axis servo-controlled travel.

Every LNTS unit comes standard with a turret-mounted pickoff counter-spindle and a gang platform with three backworking tools. The 8-position main turret position utilizes VDI-30 tool holders and can accept live tooling in any position. Spindle sizes range from 36mm (1.4 inches) to 65mm (2.55 inches). Every unit comes equipped with a 1,000 PSI high pressure oil/water coolant pump and tool holders for all cross-slides and turret positions, including 2 radial and 2 axial live tools. Every model offers an optional eight position static backworking turret.

**About Absolute Machine Tools, Inc.**

Absolute Machine Tools, Inc. sells and supports Mitsubishi Electric Automation Robots, Productive Robotics Cobots and Robots; Johnford Bridge & Gantry Mills; You Ji Vertical Turret Lathes; Tongtai Horizontal Machining Centers (former Hitachi-Seiki OEM); PCI Horizontal Machining Centers; Quicktech Multi-Axis Multi-Spindle Mill/Turn Centers; Lico Multi-Slide CNC Screw Machines and Twin Spindle Multi-Slide Mill/Turn Centers; Nexturn Swiss-type Lathes; AccuteX Wire EDM and Die Sinker Machines; APEC 5-axis Gantry-style Linear Motor Machining Centers; and Precihole Gun Drilling Machines. The company has worked with several of its principal machine tool partners for over 25 years to offer some of the most heavy-duty, accurate, and productive machines in the industry. Absolute is an authorized FANUC America Corporation Systems Integrator and a Mitsubishi Electric Automation Diamond Partner. The company has built its reputation on exemplary applications engineering, service, customer support, comprehensive training, and effective preventive-maintenance programs. In addition to its headquarters in Lorain, Ohio, the company has established direct full-service technical centers in Mason, Ohio and Livonia, Michigan. For more information, contact Absolute Machine Tools, Inc. at 800-852-7825 or [www.absolutemachine.com](http://www.absolutemachine.com).
