

Section 179 Deduction **FAST FACTS**

Section 179 is a U.S. tax code created to help businesses.

By allowing businesses to deduct 80% of the purchase price of equipment, (the deduction is at a robust \$1,160,000, and will stay there for the remainder of 2023), Section 179 is a fantastic incentive for businesses to purchase, finance, or lease equipment.

Section 179 is valid for most types of equipment purchases.

Our wide range of equipment qualifies for the deduction incentive, but the machines must be purchased and put into service by December 31, 2023.

Section 179 can greatly help your bottom line.

By deducting the full cost of the machinery, you lower the amount you pay for equipment substantially.

Section 179 is easy to use.

All you need to do to use this deduction is buy, finance, or lease new or used equipment, and fill out a special IRS form.

Section 179 must be used by the end of the year.

To qualify for the Section 179 deduction, equipment must be purchased, leased, or financed, and placed into service by midnight on December 31st, 2023.

Section 179 can change from year to year.

For the past several years, Congress has raised the deduction limit, let higher limits expire, then raised them again. The various tax and stimulus acts have also affected Section 179 over the years.
